

Aggressive Growth in Medical Services and Products

The aging of America is bringing about a revolutionary change in the multi-billion dollar health care industry. As more Americans live longer, with the number of elderly people dramatically increasing every year, more will require medical products and services.

While baby boomers continue to reach retirement age, the number of Americans age 55 and older will dramatically increase from 60 million today to about 108 million by 2030, or approximately 31% of the population. Notably, the next generation of retirees will be the healthiest, longest lived, best educated, and most affluent in history.

From the perspective of an investment opportunity, the explosive growth of this demographic trend signals a change that is tailor-made for small firms because it is creating new niche markets for companies that service the medical and daily-living needs of the aging population.

Meeting this opportunity head-on is **MedEx, Inc., (MDXX:PK)**, an early stage Nevada based medical acquisition company that specializes in the procurement of medical supply companies, medical technology companies, and assisted living and care facilities worldwide. For additional information see www.medexsynergies.com

MedEx, Inc.'s goal is to become a leading medical supply and equipment company that provides products for people with disabilities, the elderly and for those recovering from surgery, in rehabilitation facilities, nursing homes, and assisted living centers.

THE VALUE OF TRUST

As Marco Montenegro, Chairman and CEO of MedEx, Inc. says, "The main reason people order their medical supplies and equipment from MedEx is, in old fashion terms, 'Trust'. MedEx, Inc. has spent fifteen years developing credibility with its customers, suppliers and employees, making it easy and convenient to order medical products."

With an experienced management team, MedEx, Inc. is building an industry leader via the following strategies:

- deliver medical supplies directly to clients in discreet packaging;
- bill for insurance on behalf of the client;
- have knowledgeable personnel on staff to work with clients;
- have bilingual representatives available to answer clients' queries;
- make samples of most supplies available to clients.

Responsible for corporate operations, finance and business development, Shea is a twenty year veteran in medical affairs consultation with a specialization in financial controls and contract negotiations

RECENT DEVELOPMENTS

April 13, 2010

MedEx, Inc. announced the signing of a binding letter of intent to acquire privately held BEE Mobile, Inc. Founded in 2008 and headquartered in San Diego, CA, Medicare accredited BEE Mobile services and rents power wheelchairs and scooters as well as high end rehabilitation equipment.

Terms of the transaction were not disclosed but will consist of a combination of cash and MedEx, Inc. restricted shares. Management commented that they believe there will be no dilution to the existing shareholders as a result of the transaction.

"The BEE Mobile acquisition is expected to produce 2010 annual revenue of \$1 million and net earnings of approximately \$400,000 from a single location. A second facility is expected to open in June 2010," said Mr. Marco Montenegro, Chairman and CEO of Medex, Inc. "Complementing the previously announced Creative Rehab Technology Services transaction, BEE Mobile will expand Medex's offerings into the burgeoning wheelchair and scooter repair and rental markets. We welcome BEE Mobile, Inc. to the growing Medex portfolio of companies."

March 24, 2010

MedEx, Inc. announced the signing of a binding letter of intent to acquire privately held Creative Rehab Technology Services, Inc. Founded in 1997 and headquartered in Chula Vista, California, Creative Rehab Technology Services (CRTS) produces specialty high-end rehabilitation chairs in the durable medical equipment industry. Terms of the transaction were not disclosed but will consist of a combination of cash and MedEx, Inc. restricted

shares. Management expects that there will be no dilution to the existing shareholders. On April 28, 2010, MedEx's management announced that they intend to close the acquisition of CRTS on May 07, 2010.

"Consistent with our previously outlined acquisition strategy, the Creative Rehab transaction is expected to produce annual revenue of \$1.2 million and net earnings of approximately \$365,000. Of greater significance, the Company's existing service relationships

with Medicare and Medi-Cal offers important channels for new sales of other product lines as well as ready justification for additional related acquisitions throughout the U.S.," said Marco Montenegro, Chairman and CEO of MedEx, Inc. "We welcome Creative Rehab Technology Services to the MedEx portfolio of companies."

February 11, 2010

MedEx, Inc. announced a forward stock split of the Company's common stock on the basis of four shares for every one share currently issued and outstanding. The stock split was approved by written consent of the Company's board of directors and a majority of the Company's shareholders effective February 8, 2010. The record date for this stock split was the close of business on February 22, 2010. The pay date was February 23, 2010. Holders of fractional shares of the Company's common stock will receive a proportional number of shares. As a result of the stock split, shareholders will have four common shares for every one common share held at the close of business on the record date and the total capitalization of the Company's common stock will increase from 21,160,000 shares outstanding to 84,640,000 shares outstanding.

March 09, 2010

MedEx, Inc. announced the appointment of Larry G. Shea to the position of Chief Operating Officer and member of the Company's board of directors. Shea, 40, will be responsible for corporate operations, finance and business development reporting to MedEx President Marco Montenegro. A twenty year veteran in medical affairs consultation with a specialization in financial controls and contract negotiations, Shea has most recently served as President and Chief Executive Officer of Professional Services Network providing services in practice management and development to companies such as Green Valley Drugs (developing pharmaceutical and physician supplies), Hogan Medical Center (acting COO role), Advanced Medical Center (acting COO role).

"As MedEx continues to build its management team, Larry's appointment provides significant knowledge in the medical industry that we intend to leverage in the selection and development process for planned acquisitions," Montenegro said. "We look forward to his contributions and achievements."
